

DO NOT SCALE

Notes

This detail shows dimensions of the Newton NP400 Pump.

The Newton NP400 is a medium to high capacity pump and can be used within either the Newton Titan-Pro or Newton Titan 2 Sump Chamber, or a preformed Concrete Sump.

The NP400 can be supplied as an Automatic pump with auto pump switching via the attached vertical float switch (not shown), or as a Manual pump when used with the Newton Control Panel Pro and Newton pump controller.

To access further details and relevant technical information please call our Technical Team on 01732 360095 or refer to our [website](#).

Newton CDM System

Dimensions of Newton NP400 Pump

NOTE: This is a Newton waterproofing detail and copyright remains with John Newton & Co. Ltd. (trading as Newton Waterproofing Systems). Any specification/advice provided is only valid if used with products supplied by John Newton & Co. Ltd. For the design of the structure, please use a professional designer. We recommend that Newtons' waterproofing systems are installed by our NSBC registered contractors who can offer insurance backed guarantees and accept liability for both the design and installation of our systems. Please refer to product data sheets before installation of our products. Newton Waterproofing Systems reserve the right to update drawings and product literature at any time.
