## Notes

This drawing shows Newton 803 Newtonite or Newton 805 Newlath applied to the wall as a damp proofing solution.

Newton Mesh Plugs should be fixed at 250 - 300mm centres.

The wall membrane should be extended to just above a viable DPC or 100mm above the height of the recorded rising damp or salt band.

Please refer to plasterboard on dabs specification within the installation instructions of Newton Meshed membranes.
