PRODUCT CERTIFICATE

Newton CDM Cavity Drain Membrane System®

KEY INFORMATION

3 SUMMARY OF DESCRIPTION OF BUILDING METHOD OR PRODUCT

The Newton CDM Cavity Drain Membrane System© (formerly the Newton® System 500® Basement Water Management System) is comprised of wall and floor waterproof membranes, with PVC ducts and pipes that divert any water in a basement to a sump for disposal by either gravity or a pumped system.

Continuation of description can be found in item 9. Supporting Information about Description of Building Product or Method.

Matters that should be taken into account in the use or application of the building method or product can be found in item 6. Conditions and Limitations of Use.

4 SUMMARY OF INTENDED USE OF BUILDING METHOD OR PRODUCT

The Newton CDM Cavity Drain Membrane System© is intended for the management of external moisture (ground-water) that has entered the basement of a building through the basement walls or floor, directing the moisture to a sump from which it can be pumped.

Continuation of intended use can be found in item 10. Supporting Information about Intended use of Building Product or Method.

BUILDING CODE PROVISIONS

The performance clauses of the New Zealand Building Code that are relevant to the intended use and with which the building method or product complies or contributes to (where used as part of a system).

B1 Structure: B1.3.1, B1.3.2; B1.3.3 (j), B1.3.4

B2 Durability: B2.3.1 (a), B 2.3.2 (a)

E2 External Moisture: E2.3.2 (contributes to), E2.3.3 (contributes to), E2.3.7

F2 Hazardous Building Materials: F2.3.1

How the building method or product complies or contributes can be found in item 12. Basis for Certification. Any qualifications on the extent of that compliance can be found in item 6. Conditions and limitations of use.
